## Nixon Affirms NATO Commitment

# U.S. Backs British Entry Into Market

LONDON (AP) — President Nixon pledged anew to Britain today that the United States backs the concept of an enlarged Common Market, including Britain, within a unified Europe.

His position was made known by his spokesman, Ronald L. Ziegler, at a news conference following the President's two-hour and 46-minute meeting with Prime Minister Harold Wilson this morning.

In a discussion of European integration, Ziegler said, the President "indicated, as he has done before, support for Britain's entry" into the Common Market.

Nixon also affirmed the abiding commitment of the United States to the North Atlantic Treaty Organization and European security.

### Wilson Pleased

Trevor Lloyd Hughes, the British spokesman, reported Wilson expressed pleasure at Nixon's affirmation of support for the NATO alliance.

This appeared to place the U.S. administration in opposition to the policies attributed to President Charles de Gaulle for recasting the institutions of a divided Europe.

But the French president's quarrel with Wilson's government was not directly discussed, the U.S. and British spokesmen said at the joint news conference.

The President's crowded 16-hour day was dominated by two working sessions in the cabinet room of No. 10 Downing St. examining major world problems for Peking to Paris.

### Queen's Luncheon

Also on Nixon's crowded schedule was a luncheon given by Queen Elizabeth II and Prince Philip at Buckingham Palace, and meetings with Conservative party leader Edward Heath; former Prime Minister Harold MacMillan; another Conservative; and Liberal party chief Jeremy Thorpe.

Among the chief topics Nixon and Wilson were tackling were: —East-West relations; including the President's hopes to negotiate soon with the Soviet Union;

—The future of the North Atlantic Alliance; including President Charles de Gaulle's attempts to do away with it;

—The Arab-Israeli conflict and the prospects of an American-Soviet agreement to promote peace;

—The Asian scene; with the

### Weather

ESCANABA AND VICINITY—Mostly cloudy today, tonight and Wednesday. Highs today and Wednesday in the lower 30s, low tonight in lower 20s. Thursday's outlook: chance of snow. The highest temperature yesterday was 35 and the overnight low was 27. Winds light and variable. Precipitation probabilities: today, tonight and Wednesday, 10%. Seventeen inches of snow on the ground.

Upper Peninsula — Mostly cloudy this afternoon, with a chance of brief snow flurries, mainly near Lake Superior. Highs this afternoon and Wednesday 30 to 36. Lows tonight 6 to 23. The revue will be staged publicly starting Wednesday.

Sun sets today at 5:29 p.m. rises Wednesday at 6:53 a.m.

## Mariner 6 On Mars Course

PASADENA, Calif. (AP) —

Lugging two powerful television cameras, Mariner 6 sped on course toward Mars today.

The unmanned Mariner cast a glow visible for miles Monday night as it rocketed from Cape Kennedy, Fla. Scientists tracked it for 4½ hours, then locked its navigation equipment on two guide points, the sun and Canopus, the brightest star in the southern hemisphere.

Ahead lay a five-month, 226.3 million mile journey.

Controllers at the Jet Propulsion Laboratory in Pasadena plan to fine-tune Mariner's course in about four days.

## Prince Sings In Garbage Can

CAMBRIDGE, England (AP) —

The young fellow sitting in a garbage can singing "Let's Get Drunk with Harry the Monk" was the future king of England.

It happened Monday night at the dress rehearsal for a revue to be presented by Cambridge University, where 20-year-old Prince Charles is a second year student.

The revue will be staged publicly starting Wednesday.

### Current law provides that board members be appointed without regard to political affiliation."

Prepared for a final vote in the Senate was a bill authorizing the State Natural Resources Commission to establish an open season on bear hunting in the lower peninsula.

Also moved up on the Senate calendar was a measure to require reimbursement to the state for the killing of hawks, owls or eagles.

The bills were sponsored by Sen. George Fitzgerald, D-Grosse Pointe Park.

In other action, bills were introduced in the house that would:

### Vote At 19

—Lower the voting age to 19. —Permit a judge to sentence a person to 10 years imprisonment for carrying a weapon while committing a felony or misdemeanor.

—Raise annual license fees of osteopaths and medical doctors to \$50 annually instead of the present \$5 per year.

—Permit the governor to nominate a lieutenant governor if a vacancy should occur in that office. The appointment would have to be approved by a majority of both houses of the legislature and the voters during the next general election following legislative approval.

The revue will be staged publicly starting Wednesday.

### Vote At 19

—Lower the voting age to 19. —Permit a judge to sentence a person to 10 years imprisonment for carrying a weapon while committing a felony or misdemeanor.

—Raise annual license fees of osteopaths and medical doctors to \$50 annually instead of the present \$5 per year.

—Permit the governor to nominate a lieutenant governor if a vacancy should occur in that office. The appointment would have to be approved by a majority of both houses of the legislature and the voters during the next general election following legislative approval.

The revue will be staged publicly starting Wednesday.

## Today's Chuckle

There's a rumor going around that we have a new trade agreement with Russia: We send them 3,000 cars from Detroit, and they send us 20,000 parking spaces from Siberia.

The spokesman said, No casualties were reported.

### ARS has not resolved this question of safety as raised by

ARS taken action to restrict or disapprove the use of lindane pellets in vaporizers in certain agricultural and industrial establishments.

The report noted that the U.S. Public Health Service, the Food and Drug Administration and other organizations "have questioned the adequacy of the scientific data to prove that continuous vaporization of lindane pellets is safe," and added:

"Information has recently come to our attention which indicates the need for a re-evaluation of the safety of lindane in

these organizations. Nor has

ARS taken action to restrict or disapprove the use of lindane pellets in vaporizers in certain agricultural and industrial establishments.

In response to the GAO report, Ned D. Bayley, director of science and education at the Department of Agriculture, said:

"Information has recently come to our attention which indicates the need for a re-evaluation of the safety of lindane in

uncontrolled environment."

Bayley said the ARS is setting up a meeting of experts in the field "to determine what steps should be taken in regard to the problem of lindane vaporizers."

The GAO said about 50 lindane pellet products are licensed by the ARS, which must register all pesticides to be shipped in interstate commerce.

The law requires the manufacturer to provide evidence of its effectiveness and safety when used as directed.

Others have said the notebooks are filled with inscription after inscription vowing death for the New York senator who had supported more U.S. military aid for Israel.

## Protest OK On Pesticides

WASHINGTON (AP) — Federal investigators have criticized the Department of Agriculture for approving use of a potentially dangerous pesticide in restaurants and other food handling businesses, and called for action to "resolve this question of safety to human health."

In a report made public Monday, the General Accounting Office said that since the department's Agricultural Research Service licensed the use of lindane

pellets in 1949, millions of vaporizers using the pellets have been sold to commercial and industrial establishments.

# Bombs For North Vietnam Depend On Cong Attacks

## U.S. Casualties Increasing With New Offensive

SAIGON (AP) — American casualties rose steadily today as the Viet Cong's new offensive continued for a third day. Authoritative sources said about 200 U.S. troops had been killed in the three days of fighting and several hundred others wounded.

Allied military spokesmen said the offensive had cost the enemy more than 2,500 Viet Cong and North Vietnamese troops killed so far, most of them by air and artillery bombardment.

South Vietnamese headquarters reported 340 government troops killed and 1,063 wounded since the enemy launched the offensive with artillery attacks on 150 towns and bases Saturday night and Sunday, followed by some ground probes.

### Mortar Attacks

At least 90 South Vietnamese civilians were reported killed and nearly 400 wounded, most of them by the enemy mortar and artillery attacks on cities and town across the country.

Although military analysts said Saigon still appeared to be the Communist's command's ultimate objective, the fighting spread north today and 28 U.S. Marines were reported killed in two attacks just below the demilitarized zone. They were the first attacks reported along the DMZ since the Communist offensive began.

Northwest of Saigon, troops of the U.S. 25th Infantry Division repulsed a heavy assault on a firebase near the Cambodian border—the second in three days—and killed 78 North Vietnamese soldiers in a 2½-hour battle.

### Less Intense

For the second night in succession, the allied commands reported about 50 enemy mortar and artillery attacks Monday night and early Tuesday on cities, towns and military posts. A military spokesman said the attacks appeared to be less intense than those the night before, casualties were fewer and damage was light.

Saigon was spared for the second night after being hit twice Sunday at the start of the offensive.

In the northern fighting, the U.S. Command said North Vietnamese troops today broke through the defenses of one firebase of the 4th Marine Regiment two miles below the southern boundary of the DMZ. Twenty Marines were killed and 95 wounded, but enemy losses were not known, the command said.

### Bombardment

North Vietnamese gunners cut into the 150 Marines in the camp with a mortar barrage during the middle of the night, then enemy infantrymen smashed through the barbed wire firing machine guns and rifles.

Close-quarter fighting raged for 2½ hours until dawn, then the North Vietnamese pulled out under American artillery bombardment.

The attack came only 24 hours after Israeli fighters bombed guerrilla bases in Syria, tangled with Syrian air force jets and claimed they shot down two Soviet-built MIG 17s.

An army spokesman said the guerrillas in Jordan raked the patrol with machine-gun and bazooka fire, but there were no casualties.

The planes then bore down on the Jordanian village of Manshieh, south of the Sea of Galilee, now a guerrilla stronghold. Palls of smoke were seen rising from the area.

A Jordanian army spokesman in Amman said Jordanian and Israeli forces exchanged shots across the river for 20 minutes late Monday. He said the Israeli

forces returned the fire, the spokesman said. No casualties were reported.

## Californians Flee Floods

SANTA PAULA, Calif. (AP) — Thousands of Californians fled floods and new earthslides as a record rain still poured today. Highway washouts cut off rescue of the stranded.

An estimated 6,000 persons were evacuated throughout the night in six counties from Fresno south.

Rains from the three-day

storm pushed totals to new highs for the first two months of the year. For example, about 44 inches in San Luis Obispo and about 24 inches in Los Angeles.

Blizzards closed roads and isolated the eastern approaches to the High Sierra where a week-long search has been under way for an airliner lost with 35 persons aboard.

The biggest evacuation was in Santa Paula, a Ventura County community of 8,000 about 60 miles northwest of Los Angeles and only a few miles west of Sespe Creek, where January rains swept nine persons to their deaths.

### Evacuate Thousands

Police evacuated 4,000 persons as swollen Santa Paula Creek flooded the east end of town. After drenching weekend rains, three inches of new rain fell Monday and another three inches was predicted.

A flood two feet deep rolled through town, inundating stores.

It was the second time in less than a month that floods forced Santa Paula residents to evacuate their homes, and officials said the majority fled leaving their belongings behind.

About 10 miles east of Santa

Paula, an estimated 350 to 400 residents evacuated the Fillmore area in the face of high floodwater from two rivers and a creek.

In the Ojai Valley to the northeast, 600 persons spent the night in schools to escape foot-deep flooding in the Camp Barrett and Rancho Sespe areas from San Antonio Creek and the Ventura River.

### Relief Centers

City streets at Fresno in central California were flooded and sandbags were used to hold back water from stores and homes. There were evacuations in low-lying areas throughout the central valley.

But he stopped short of charging that the attacks on southern population centers violated an "understanding" under which the United States stopped bombing the North while the enemy halted attacks on southern cities and violations of the demilitarized zone.

Press officer Carl Barth said the assaults "clearly raises a question as to the other side's desire to work toward a peaceful settlement of the conflict."

But Barth refused to go any further, except to say the United States is conducting a "continuing and careful review" of the "understanding."

### Retaliation

The South Vietnamese ambassador to the United States, Bui Diem, also said the enemy's tactics in the next few days would be important in determining whether the allies would retaliate.

"If the enemy attacks and attacks, do we accept it indefinitely," he asked. "If they stop their attacks now with the shelling and scattered ground action, the reaction would likely be to give them a serious warning about the future of our talks."

"But if the shellings go on, I think the reaction would be quite different."

Diem did not say what form any retaliation would take, although he hinted quick raids such as used by Israel against Arab targets might be considered.

Military officers at the Pentagon also were skeptical any retaliatory action would be taken if the cities' shelling tapers off, as they expect it will.

### To Be Banned

Violations of the DMZ and shelling of population centers were supposed to have been banned under the "understanding" the United States had in entering peace talks with Hanoi at Paris.

Over the weekend, however, the North Vietnamese and Viet Cong launched a coordinated series of wide-ranging fire attacks at more than 100 locations in Vietnam including scores of cities and towns.

The attacks against cities have continued, although decreasing in intensity the last two days.

The past violations particularly DMZ incidents, generally have been tolerated by the United States and no retaliatory actions have resulted.

## Sirhan Objects To Diary Use

LOS ANGELES (AP) — Despite Sirhan Bishara Sirhan's strong objections, his diary was supposed to have been banned under the "understanding" the United States had in entering peace talks with Hanoi at Paris.

The doctors at Walter Reed General Hospital said, however, that the 78-year-old five-star general "will have to be watched especially carefully during the next two weeks" for any complications.

They added that only "time will tell" how much strain Sunday's emergency surgery put on a heart that has weathered seven major attacks.

This was the sum of two medical bulletins, plus answers to written questions by newsmen issued at the hospital Monday.

The Army medical team disclosed for the first time that the obstruction within his small intestine was so great there was clear

## Planners Okay Acquisition Of City Park Site

Looking toward future development of the shore area east of Veterans Park on Lake Shore Drive, the Escanaba Planning Commission in recent meetings recommended to the City Council the acquisition of about five acres on the shore for park purposes.

The area is owned by George McEwen of Escanaba and Chicago and has been designated by the city for several years as a future park site.

The Planning Commission unanimously approved a recommendation that the city acquire the property either by paying cash or by an exchange of land of equal value as appraised by the city assessor. Action on the recommendation was asked to be undertaken by the city by May 1.

## Brown Facing New Charge

A negligent homicide charge against Larry D. Brown of Escanaba which was dismissed in District Court in Luce County last week has been reinstated by Luce County Prosecuting Attorney John Shimmens.

Brown, 19, of 2707 Lake Shore Dr., was arrested by State Police of the Gladstone Post on a Luce County warrant Monday. He appeared in District Court in Escanaba and was released on his own recognizance pending hearing in District Court in Newberry.

Date of the Newberry court hearing was not set.

The first negligent homicide charge was dismissed by Luce County District Judge Robert Wood last Monday after preliminary hearing.

Brown was charged in connection with an automobile accident near Newberry last Nov. 17. Brown was the driver of a van-type vehicle which collided with another car, killing the driver of the second car, Marion Levesque, 35, of Aurora, Ill. Brown and other members of an Escanaba rock band were returning to Escanaba from an engagement in Newberry when the accident happened.

Crayfish in Madagascar may grow to a length of 10 inches.

## Loggers Meet In Cooks Mar. 3

A meeting between the U.S. Forest Service and local loggers who operate on the Rapid River, Manistique and Munising Ranger Districts will be held at the Inwood Township Hall in Cooks on March 3 at 7:30 p.m.

The Forest Service and timber operators are meeting to gain a better understanding of each other's problems and to try to work out some solutions to these problems. The two main topics to be discussed are bidding on Hiawatha National Forest timber sales and timber sale contract extensions. The proposed new timber sale contract will also be discussed.

All loggers who operate in Alger, Delta and Schoolcraft counties are invited to attend and participate in the meeting. All other people interested in natural resource management are also welcome.

### Arthritis Is Panel's Subject At NMU Thursday

MARQUETTE — Arthritis, considered the most prevalent of all chronic crippling diseases, will be the subject of a free public forum at 8 p.m. Thursday in the University Center at Northern Michigan University.

Heading a panel will be Dr. John W. Sigler, president-elect of the Arthritis Foundation and director of the rheumatology department at Henry Ford Hospital, Detroit.

Other panelists will include Dr. George Wilson, internist, and Dr. R. William Neuman, orthopedic surgeon, both of Marquette. Moderator will be J. R. Smith, Petoskey, director of the northern division of the Foundation's Michigan Chapter, who estimates that 20,000 Upper Peninsula residents are affected by arthritis. The panel will answer questions about the use of aspirin, spas and warm springs, effect of the climate, and whether or not exercise helps stiffness.

Drugs and new developments in the treatment of rheumatoid, osteoarthritis and gout also will be discussed.

### Miss Harris Is Author Of Book

Marjorie M. Harris, assistant professor in the College of Physical Education at the University of Illinois is author of a new book, "Basic Swimming Analyzed".

The book, geared for professionally and non-professionally trained teachers of basic swimming, provides an in-depth analysis of swimming skills to give the teacher an understanding of movement fundamentals related to the medium of water. It also emphasizes the teacher's responsibility to the student.

Miss Harris is the sister of Mrs. Kenneth G. Jensen, children's librarian at Escanaba Public library.

## P&H 1st Quarter Earnings In Dip

MILWAUKEE — Harschfeger Corp. was the principal reason for the shipment decline, Board Chairman Walter Harschfeger said.

Net income from operations was \$341,402, or 27c per common share, compared to earnings of \$890,168, or 70c per common share a year ago. Total income, including the extraordinary gain on the sale of the Welding Products Division, was \$1,887,446, or \$1.49 per share.

Commenting on the results, Walter Harschfeger said: "While the first quarter reflected improvement in shipments from our main plant at Milwaukee and the Escanaba Construction Equipment Plant over the prior quarter, total progress at Escanaba was not completely up to expectations.

This and the rearrangement costs incurred seriously influenced the depressed income for the quarter."

Harschfeger's order backlog amounts to about \$64 million and incoming orders continue to reflect good demand for all its products, said Harschfeger.

Directors of the corporation voted a quarterly dividend of 50c per common share, payable April 1 to stockholders of record March 14.

### Obituary

MARCUS A. HANSEN  
Complete funeral services for Marcus A. Hansen were held at 2 p.m. Tuesday at the Anderson Funeral Home with the Rev. Karl J. Hammar officiating. Burial was in Gardens of Rest Cemetery.

### Hospital

Ed Barron is a surgical patient at St. Francis Hospital.

THREE MEN ARRESTED aboard a United Air Lines jet after hinting the flight may be diverted to Cuba are handcuffed early Sunday at FBI headquarters. Plane was destined for San Francisco from Chicago's O'Hare Airport. From left: William Getz, 19, Lakewood, Ohio; Raymond Hewitt, 27, Los Angeles and Dexter Woods, 21, San Francisco. They were charged with imparting false information regarding the safety of an airliner and one with carrying a concealed weapon aboard an airliner. (AP Wirephoto)

### Bank Debit Indicator

## Gladstone Up; Escanaba Slips

The Upper Peninsula had a cent to \$38.6 million; St. Ignace bank debits—a business volume indicator—of \$209 million in January, an increase of 8 per cent over the same month a year ago, the Federal Reserve Bank of Minneapolis reports. The 12 month total through January also reflected an 8 per cent increase over the same period a year previous.

Six cities of the U.P. reported a decline in January, including Escanaba, which was off 6 per cent with a total of \$23.9 million in debits. Others with declines were Calumet, Hermansville, off 1 per cent to \$67,000; Ishpeming, Menominee, off 1 per cent, and Negau-

The 12 months through January, Escanaba had debits of \$289.3 million for a gain of 6 per cent while Marquette had a gain of 7 per cent to \$393.5 million, and Iron Mountain had a gain of 19 per cent to \$250 million.

Head were Gladstone with 6 per cent to \$3.4 million; Marquette with 5 per cent to \$6.1 million; Marquette with 26 per

### Property Laws To Be Discussed

Michigan laws regarding wills and descent and distribution of property and other legal aspects of property rights will be discussed at 8 p.m. Thursday Feb. 27 in the Extension room, Delta County Building. Interested persons are invited.

Ralph Peterson, Escanaba attorney, will present some legal aspects of property rights and wills. A question period will follow.

Harold C. (Swede) Anderson, 62, of Stephenson, one of Menominee County's best known businessmen, died Monday at the University Hospital, Madison, Wis., after years of illness.

He was the owner-operator of the Anderson Motor Service in Stephenson and of Anderson Milk Transit, which operated a fleet of trucks picking up milk in the mid-Upper Peninsula area for delivery to the White House condensary at Stephenson.

Friars may call at the Boyce Funeral Home from 3:30 to 9:30 p.m. today and parish prayers will be recited at 8 p.m. Funeral services will be conducted at 9 a.m. Wednesday at St. Joseph's Church and burial will be in Holy Cross Cemetery.

The body is at the Diehm Funeral Home at Stephenson, where friends may call from 4 p.m. Wednesday until noon Thursday, when it will be taken to St. Stephen's Lutheran Church, Stephenson, for visitation until the funeral service at 2 p.m. The Rev. Ralph Backman will officiate and burial will be in the Stephenson Township Cemetery.

Masonic rites will be held at 8 p.m. Wednesday.

Mr. Anderson was born Sept. 18, 1906 in Marinette and wed Miss Myrtle Lundeen Nov. 19, 1932 in Rockford, Ill. He is survived by his widow, his son, Harold, Jr., of Stephenson and daughters Nancy and Patricia of Hillsdale, Ill., a brother and two sisters in Kalamazoo and 3 grandchildren.

He was a member of St. Stephen's Lutheran Church, Stephenson Lodge 492 F&AM, Stephenson Chapter 443 OES, Francis M. Moore Consistory and the Ahmed Temple Shrine of Marquette.

William Druding, 23, of 1320 Lake Shore Dr., Gladstone, suffered burns and a laceration to his left knee Monday when he was thrown off the snowmobile he was driving in Section 16, Masonville Township, State Police reported.

Druding told officers he was going through the woods about 7:30 p.m. when the snowmobile hit a hole, throwing him off.

Directors of the corporation voted a quarterly dividend of 50c per common share, payable April 1 to stockholders of record March 14.

Ed Barron is a surgical patient at St. Francis Hospital.

### Scout Banquet Held At Wells

Wells Cub Scout troop 431 held their Blue and Gold Banquet Monday evening at St. Anthony's Church in Wells. A potluck supper was held and awards were presented to the boys by Cubmaster Tom Way.

Den mothers Mrs. Richard LeClair, Mrs. Daryl Rantanen, Mrs. James Archambeau, Mrs. Floyd Dabney and Mrs. Frank Stoykovich were presented one year pins and Mrs. Harold Breitzman and Mrs. Leonard Johnson, three year pins. Cubmaster Way was presented a gift from the den mothers.

Frank Polka of the Department of Natural Resources presented a quarterly dividend of 50c per common share, payable April 1 to stockholders of record March 14.

## Nixon In Europe

President Nixon's current tour of Europe was inspired by several motives. He wanted to assure Europe that the Johnson Administration's occupation in Asia didn't reflect his administration's position. It gives Europe top priority in its scale of values.

And he wanted to solidify the home front behind his administration. He was elected by a minority and Americans are notoriously divided on home front issues, but usually solid on foreign policy, so he reasoned that he could broaden his home front support by involving himself early in our foreign problems. They're big. Not only the war in Vietnam, but the unsettled and potentially explosive Israeli-Arab war, Berlin, etc.

President Nixon was hopeful that he could achieve a new unity among the Western Allies on his visit. This is the hope of all new presidents, it seems; it's only after they've tried and tried to achieve it that they begin to think that some obstacles are insuperable.

Charles DeGaulle might be one of them, but Nixon likes DeGaulle and may have counted upon this feeling to gain him cooperation. DeGaulle used the occasion of the Nixon visit to suggest to Britain that they shake up the European Common Market and the North Atlantic Treaty Organization. The first organization is a trade alliance and Britain isn't in it, thanks to France; and the second is a defensive alliance and France has been bugging out of it.

DeGaulle certainly unsettled Mr. Nixon's trip with this maneuver, which Washington thinks must have been calculated. Britain and France fell to quarreling between themselves over the issue and we now present to Russia just the kind of impression that Nixon wanted to avoid: allies quarreling among themselves.

Addressing the NATO Council on his first tour stop, Mr. Nixon told our allies that the United States plans eventual talks with Soviet Russia about world affairs, and particularly what the two superpowers' roles will be toward them.

We'll consult with our allies before and during the discussions with Russia, said Nixon, but we'll talk with Russia. It could well happen that DeGaulle's newest gambit to cut the United States down to size by making an all-European deal with Britain won't help France and may result in loss of French influence in world politics as the two greatest military powers go to the summit.

Any important division of power in the world must involve the United States and Russia. DeGaulle has chosen to weaken our position as a member of NATO as we prepare to talk with the Russians, but it is hard to see how he has helped France.

## Cooling Trend

Winters aren't what they used to be, say climatologists, and they aren't talking about the blizzard of '88.

Since about 1950, a cooling trend has made winters a bit harsher and summers slightly milder in both North America and Europe. This reverses a warming trend that took place during the first half of the 20th century, says the National Geographic Society.

Paradoxically, the experts suspect that man-created pollution is responsible for both trends.

The warming may have been caused by carbon dioxide, produced by burning coal and oil. The cooling may be due to other forms of pollution — dust and smoke and other particles man is spewing into the air.

One scientist with the Environmental Science Services Administration estimates that the carbon dioxide naturally present in the atmosphere keeps the world about 20 degrees warmer than it would be if the gas were totally absent. A 10 per cent increase in the amount of carbon dioxide, which is an efficient absorber of heat, could raise temperatures in the lower atmosphere by one-half a degree Fahrenheit.

This is just about what the worldwide temperature increase has been since 1900. It doesn't sound like much, but it was enough to push the crop line on the Canadian prairies 50 to 100 miles farther north.

On the other hand, dust and smoke reflect some of the sun's heat back into space. We are currently manufacturing, warn the climatologists, a nebulous veil of dust that is virtually encircling the world.

Mankind evidently has two alternatives before it. Either we pour more carbon dioxide into the air to counteract the effects of the dust, and then more dust to counteract the effects of the carbon dioxide or we stop polluting the atmosphere entirely.

It is not difficult to guess what it will have to be. There is no advantage in being comfortably warm if you can't breathe.

## Think Breaks

Now comes a British psychologist with a proposal he thinks might do more than the long lunch hour in making the job bearable.

Dr. George Gall says that what is needed in today's massive aggregations of employers and employees, and for housewives for that matter, are "think breaks," 10 minutes away from work when everybody would do nothing (sneaking a cigarette or an extra cup of coffee would defeat the purpose, he says) but ponder their jobs, how to improve and think positively about them.

The breaks would, in effect, be time-out periods from the too-fast pace of modern life, enabling people to contemplate that life and, theoretically at least, therefore get more out of it.

There is a possible drawback. The way our increasingly beehivish society has been going, if people really stopped to think about their jobs, would they ever go back to them?

## People, Events Of Yesteryears

From the Files of the Escanaba Daily Press

25 Years Ago  
Bob and Helen Schwalbach teamed up in the annual ice revue. The precisioned pair performed a number of difficult maneuvers.

50 Years Ago

Manager L. J. Jacobs of the local picture houses received word that a film had been stolen during transportation. It was later found on the Painesdale platform. It is believed that the thief, when he realized the 60-pound suitcase did not contain any drinkable properties, took that means of returning it.

## New Adults Gain Vote; Lose, Too

BY SIDNEY MARGOLIUS  
(Excerpted with Permission of the Macmillan Co., from "The New Adult Guide to Independent Living," Copyright 1969 by Sidney Margolius)

However confusing and elusive emotional maturity may be, the legal coming of age is laid down by state laws. A knowledge of your rights and responsibilities under the law is essential to handle the complexities of modern living.

While you have looked forward to coming of age because of such privileges as the right to vote and independence from legal parental control, in some respects you will have fewer legal privileges as a legal adult than you had as a minor.

This is especially true in your financial dealings. As a legal adult you are legally responsible for whatever you do. A minor cannot be held responsible for a contract he makes unless he has independent income and

### Education

Without continuing education, even a young man can become an obsolete man.

Americans typically now are high school graduates. Almost half get at least some college education. In some professions even a bachelor's degree is no longer enough. Just in our lifetime, the average person's schooling has increased by a third.

The money reason for continuing education is that experience by itself carries less weight these days. Much of the experience you gain on a job can become obsolete overnight because of technological changes. Only when experience is backed up with considerable schooling does it lead to substantial boosts in income.

The average income of college graduates age 25 to 35 is 10 per cent higher than that of high school graduates age 45 to 54 even with their additional 20 years of work experience.

can be proved to have bought "necessaries" (actual necessities) such as food, clothing, shelter or medical care.

### Contract Rule

In fact, until you reach 21 (in most states), and for a reasonable time afterward, you even can repudiate contracts you made before 21, by returning the merchandise (or loan). Nor are your parents liable for any credit it purchases you made before 21 unless they too signed for them. This is why many of the teenage credit plans require parent's signature on credit application.

Nor, before reaching your majority, can you institute a lawsuit in your own name, even a divorce, legal separation or annulment action. The court would have to appoint a "guardian" for purposes of litigation; for example, a parent or an older relative.

The age that you are considered an "adult" in the eyes of the law is earlier if you commit a crime than if you want to buy a car on the installment plan.

### Legal Age

Although the laws on specific rights and responsibilities vary considerably from state to state, in all states young men do not come of legal age — that is, attain their majority — until age 21. But while women come of legal age at 21 in 41 states, nine set the female majority at 18: Arkansas, Idaho, Illinois, Montana, Nevada, North Dakota, Oklahoma, South Dakota, Utah.

If you are still a minor, you should know that there are in some states important exceptions to the general rule that a minor can void a contract at his own option, except in the possible case of the purchase of necessities. Married minors are permitted to make contracts in Iowa, Kansas, Louisiana and Utah, and female minors in Alabama, California, Maryland, Nebraska, Oregon, Texas

## Win At Bridge

By JACOBY &amp; SON

At most tables in a duplicate game North would wind up as declarer at either three or six no-trump. He would take the diamond finesse somewhere along the line and make either six or seven, depending on whether or not he could gather in four spade tricks.

In the average rubber bridge game South might well play in six diamonds. He also would make his contract by means of the same diamond finesse.

We watched our old friend the Unlucky Expert play the hand. Since he sat South he made sure to be the declarer at diamonds. Then he managed to go down three tricks and, strangely enough, the only thing wrong with his play was the result.

He went right up with dummy's ace of hearts. There was no point in giving up a trick in this suit. Then he led dummy's seven of diamonds to his king. Singleton queens have been

Pass

known to drop on occasion. When the queen failed to fall, he entered dummy with the king of clubs and led the jack of diamonds. East played low. Our hero rose with the ace and was down to his last chance. He played his queen of spades, led the deuce of spades and called for dummy's 10. East won a surprise trick with the jack of spades and three more with the king-queen of hearts and queen of trumps.

This is one time when we sympathize with our friend. He had taken the best percentage play for his contract but this time, the best percentage play turned out to be a loser.

Please, Ann Landers, don't

tell me to drop him. Tell me how to cure him. Thank you — A GREATFUL READER

Dear Reader: Never mind about him. I'm interested in you. Please tell me how a guy who can't even spell "grateful" got into Yale in the first place.

And how do you manage to stay there when you spend so much time writing phony letters to Ann Landers? I have come to recognize your stationery, Buster, and the New Haven postmark helps a lot, too.

Have a heart and lay off, will you please?

Dear Ann: My wife is sharing a hospital room with a woman who also had a hysterectomy. This woman's husband comes to visit her every day and brings (under his coat) her pet poodle. He says it cheers her up to see Frenchy.

My wife likes dogs but not in the hospital. She doesn't want to make any trouble, but I think it is very inconsiderate to bring a dog into a semi-private sick room. What do you think? — S.O.S.

Dear S.O.S.: It's worse than inconsiderate. It's outrageous. It's also against the law. Report this screwball to the floor supervisor at once.

How will you know when the real thing comes along? Ask Ann Landers. Send for her booklet "Love Or Sex And How To Tell The Difference." Send 35c in coin and a long, self-addressed, stamped envelope with your request.

## Scrambler

Answer to Previous Puzzle

### CARD Sense

Q—The bidding has been:

West North East South  
1 4  
Pass 1 4 Pass ?

You, South, hold:

♦ A K 6 5 ♦ 3 2 ♦ 5 ♦ A K 10 9 6 4

What do you do?

— Bid one spade. You aren't strong enough to bid two spades and three clubs will crowd the bidding unnecessarily.

TODAY'S QUESTION

Your partner rebids two hearts. What do you do now?

Answer Tomorrow

### Bank Statement

Most banks give you a statement once a month. This is a record of all your checking account deposits and withdrawals, and shows the balance.

Banks do provide suggestions on how to reconcile your records. Always follow these.

Just because you have come of age does not mean society has tossed you out to struggle alone. While you have new legal responsibilities, you also have the support of a number of social and community institutions developed to lend a hand when economic disturbances get beyond your control.

Financial emergencies and their attendant emotional ones take a number of shapes. Young adults who have not experienced a recession — personal or national — tend to panic when they encounter unemployment or financial difficulties, observes Shirley Camper, Soman, noted family consultant.

### Don't Isolate Self

Financial emergencies and their attendant emotional ones take a number of shapes. Young adults who have not experienced a recession — personal or national — tend to panic when they encounter unemployment or financial difficulties, observes Shirley Camper, Soman, noted family consultant.

Young adults who run into problems also tend to isolate themselves and drop social and business contacts when they encounter personal financial crises, Mrs. Soman observes.

Self-isolation only deepens the problems. There is no stigma in losing job, especially in a period of general recession when there are many layoffs. In fact, in time of trouble most families tend to draw closer together if the members are able to communicate with each other and if other serious problems do not already exist.

You help support, with your own taxes and contributions, the various community resources for coping with crises, and should not hesitate to call on them for help. In fact, if you see a crisis looming — and often problems can be foreseen — ask in advance for guidance on how to meet it.

# City Sewer, Water Projects In Peril

By CLINT DUNATHAN

Escanaba's participation in the state and federal "clean water" program is getting the cold water treatment, so far as state and federal participation in funding is concerned.

That's the present feeling of city representatives recently returned from Michigan Municipal League legislative conference in Lansing, where the Escanaba delegation also had the opportunity to confer with Gov. William Milliken.

Escanaba is sponsoring a program estimated to cost about \$5 million to improve and expand water supply and wastewater (sewage) disposal.

The program was timed to take advantage of federal and state legislation which promised 25 per cent federal and 50 per cent state funding participation. This left 25 per cent for the local community to raise.

## Reexamine Project

In Lansing the Escanaba delegation was told that the present picture calls for 45 per cent (not 25) from the local community.

"We're going to have to re-examine our own clean water program to determine if the City of Escanaba can assume 45 per cent of the cost of a \$5 million program," said George Harvey, city manager. "In December we made a project application on the basis of 25 per cent local participation and unless there is some favorable action at the state and federal level to keep it near that figure, we will have to take a new, hard look at the whole project."

"We are extremely disappointed," said Howard Smale, the city's administrative assistant. "The \$335 million clean

water bond issue was sold to the people of Michigan on the basis of 25 per cent local project cost."

There could still be favorable action at state and federal levels to retain the promised 25 per cent total financing, it is pointed out by Francis D'Amour, city water superintendent.

## Favor Urban Areas?

Ralph W. Purdy, executive secretary of the Michigan Water Resources Commission, advised the city earlier this month that he still doesn't know how the funds are to be distributed, but that full federal participation was understood as forthcoming when the projects were encouraged.

## Rutgers Hit

## By Protesters

By The Associated Press

Protesting students maintained occupation of buildings at Stillman College in Tuscaloosa, Ala., and on the Newark, N.J., campus of Rutgers University in the latest round of campus demonstrations.

Rutgers President, Dr. Mason Gross, said there were no plans to call police to oust the 30 Negro students who "liberated" a major classroom building Monday to protest alleged "racist" admission policies.

A spokesman for the Black Organization of Students said they would remain in the hall until the university met all demands including admission of a greater number of Negro students.

The building contains the main university switchboard which the protesters threatened to destroy "if the police come." Other than the loss of telephone service most university functions were normal.

**SMITH'S STAMPS** PH. 786-6581  
420 South 16th St.  
Escanaba, Mich. 49829  
WE ALSO DO PRINTING

Mayor Cecil B. Chase and Councilmen Miles Dupre and Robert Bink and City Clerk Don Guindon were also members of the Escanaba delegation calling on the Governor, who broached the problem of project funding in conversation in his office.

"The Governor said he wanted to make the occasion more than a social call," said Smale.

But the Escanaba group left the Governor's office with the feeling that the Governor's interest is centered in the problems of the Detroit inner city, and that he is recommending that solution of those problems receive priority. They noted that on the question of distributing the state's recreation bonding issue the Governor has said:

"It is no secret that a large share of the recreation fund should be spent in urban areas."

## Less Home Rule

On the other hand, Escanaba representatives also gained the impression from other state sources that small rural communities of state would also receive preferential treatment because of their limited financing ability. This leaves progressive and growing communities such as Escanaba holding the short end of the public funds stick.

Escanaba's delegates at the legislative conference also had the opportunity to meet with members of the Michigan House and Senate in discussions of municipal problems.

Some of these problems have to do with legislation that eats away at city home rule autonomy and increases the cost of city operations — most frequently by establishing minimum wages and benefits for whole groups of municipal employees. The city made its feeling known to the legislators but it doesn't expect much change in a politically oriented legislative philosophy.

City Clerk Guindon, member of the Municipal League's elections committee, reviewed election laws and proposed laws and submitted recommendations for improvements.

## Mrs. McIntyre Dies Monday In Wisconsin

Mrs. Derwood (Emma) McIntyre, 87, a former resident of Escanaba died Monday at the Lake Geneva Retirement Home, Lake Geneva, Wis., following a long illness.

She was born Oct. 4, 1881 in Bristol, Wis., and was the daughter of Charles and Sarah Lacy. She was married in 1910 in Chicago, and was a member of the DAR and Mayflower Descendants.

Mrs. McIntyre is survived by her son Robert of Chicago; two grandchildren, and four great-grandchildren. She was preceded in death by her husband and a son.

Funeral services will be held at the Steinle Funeral Home with the Rev. Lorry Trayser officiating. Burial will be in the Greenridge Cemetery in Kenosha, Wis.

## Briefly Told

There will be no public high school religion classes until further notice, it was announced today.

A car driven by Paul J. Kri-sak, 52, Superior, Wis., struck a deer on U.S. 2 in Nahma Township about 12:15 p.m. Sunday. State Police reported, Kri-sak was not injured.

Larceny of snowmobile parts from David Farragh, Iron Mountain, is under investigation by State Police. Farragh told officers the parts, wheels and a shaft assembly, were taken from a yard in Spalding.

State Police issued traffic citations Monday to Clara Vlau, 1401 Stephenson Ave., Escanaba, speeding; Gary Martin, Rte. 1, Bark River, failure to yield the right of way; Lester Johnson, 319 S. 11th St., Escanaba, speeding; David Boileau, 409 S. 18th St., Escanaba, speeding, and Irvin Seymour, Trenary, speeding.

State Police issued traffic citations Monday to Clara Vlau, 1401 Stephenson Ave., Escanaba, speeding; Gary Martin, Rte. 1, Bark River, failure to yield the right of way; Lester Johnson, 319 S. 11th St., Escanaba, speeding; David Boileau, 409 S. 18th St., Escanaba, speeding, and Irvin Seymour, Trenary, speeding.

Bay de Noc Toastmasters meeting at the Sherman Hotel Monday evening enjoyed a program in which James Wren, John Lamse, William L. Miller, Al Piquette, Fred Fisher, Tom McDermott, Walter Peterson and Art Brien participated. Club President Dick Powell conducted the meeting and gave invocation. Interested men are invited to the next session to be held Monday evening, Mar. 10, at 6 p.m.

Newspaper Want Ads are a big sell! One billion, twenty one million was spent on classified ads last year . . . more than for all magazine advertising combined and more than 300 million more than radio advertising.

MEETING WITH GOV. MILLIKEN in Lansing, Escanaba's representatives made it more than a social call. They inquired about projects and programs of vital importance to the community and its people. Pictured (from left) are City Clerk Don Guindon, Councilmen Miles Dupre and Robert Bink, Gov.

William Milliken, Mayor Cecil B. Chase and Howard Smale, the city's administrative assistant. The Escanabans were in Lansing for Municipal League legislative conference.

## Calumet & Hecla Strike Enters 2nd Half Year

CALUMET (AP) — A strike by the United Steelworkers Union against Calumet & Hecla, Michigan's second largest copper miner and refinery, became half a year old this week, with negotiations stalled and no

final offer exceeded by nearly 25 per cent.

### Withdraw Grievances

In return, the company demanded withdrawal of all grievances pending at its Kingman mine and that contract language be modified to remove what it termed "outmoded provisions, inconsistencies and redundancies."

The company also proposed language covering the scheduling of overtime, plus a productivity clause specifying company and union would strive for greater productivity.

It also asked changes in seniority and incentive clauses, with arbitration to settle disputes involving incentive pay and health and safety.

Improvements also were of-

## Police Sergeants Curran And Possi Complete Course

Two Escanaba Police Sergeants, Robert Curran and Raymond Possi, attended a Command Officers Training Course sponsored by the public services division of Northern Michigan University, in cooperation with the Northern Michigan Law Enforcement Training Center, Thomas Jernstad, coordinator.

The course was from Feb. 17 to 21, and it consisted of the various aspects of the role and problems of command officers.

Instructors for the course included FBI agents, members of the Michigan State Police and members of the staff of Northern Michigan University.

Not included in the program but provided as a side attrac-

tion for the members of the class was a tour of the Job Corps center located on the campus of NMU.

Sergeants Curran & Possi received certificates for successful completion of the course at an awards luncheon on Friday. Speakers were Edward Quinell, prosecutor of Marquette County and Dr. Claud Bosworth, vice-president of Northern Michigan University.

The course was from Feb. 17 to 21, and it consisted of the various aspects of the role and problems of command officers.

Instructors for the course included FBI agents, members of the Michigan State Police and members of the staff of Northern Michigan University.

When completed in 1970, the plant will generate 1,300,000 kilowatts of power for the Michigan Power Pool.

## Consumer's Plant

BAY CITY (AP) — Consumer's Power Co. said today engineering and early field construction at a proposed nuclear plant in Midland will require a \$12.6 million share of the \$22.6 million allotted to its Bay City division for 1969.

When completed in 1970, the plant will generate 1,300,000 kilowatts of power for the Michigan Power Pool.

## Sailor Exhausts Channels To Wed Girl In Vietnam

INKSTER (AP) — It's a long way from Chulai to Shangri-La. A lovesick sailor from Inkster has discovered.

Petty Officer 3c Darrel Sharpenetsky is seeking permission to marry the South Vietnamese mother of his five-month-old son.

The 20-year-old veteran of nearly two years in Vietnam said he had exhausted all military channels and now while home on leave has appealed to his congressman, Rep. William D. Ford, D-Mich.

Sharpenetsky's problem involves a requirement that GIs receive permission from military authorities before marrying women overseas.

He claims his former commanding officer has stalled the marriage, transferring him to another unit when he persisted in his requests.

Attempts to send letters and to arrange meetings have had a to run an obstacle course since

## Rob Post Office Of \$5 Million

NEW YORK (AP) — A grand conspiracy to commit burglary, possession of stolen property and possession of burglary tools.

Arrested were Joseph Marone, 44, of Manhattan; John Rand, 44, of the Bronx; and Al Roman, 52, and Joseph Roach, 44, both of Philadelphia. The dry cleaning shop is operated by Rand.

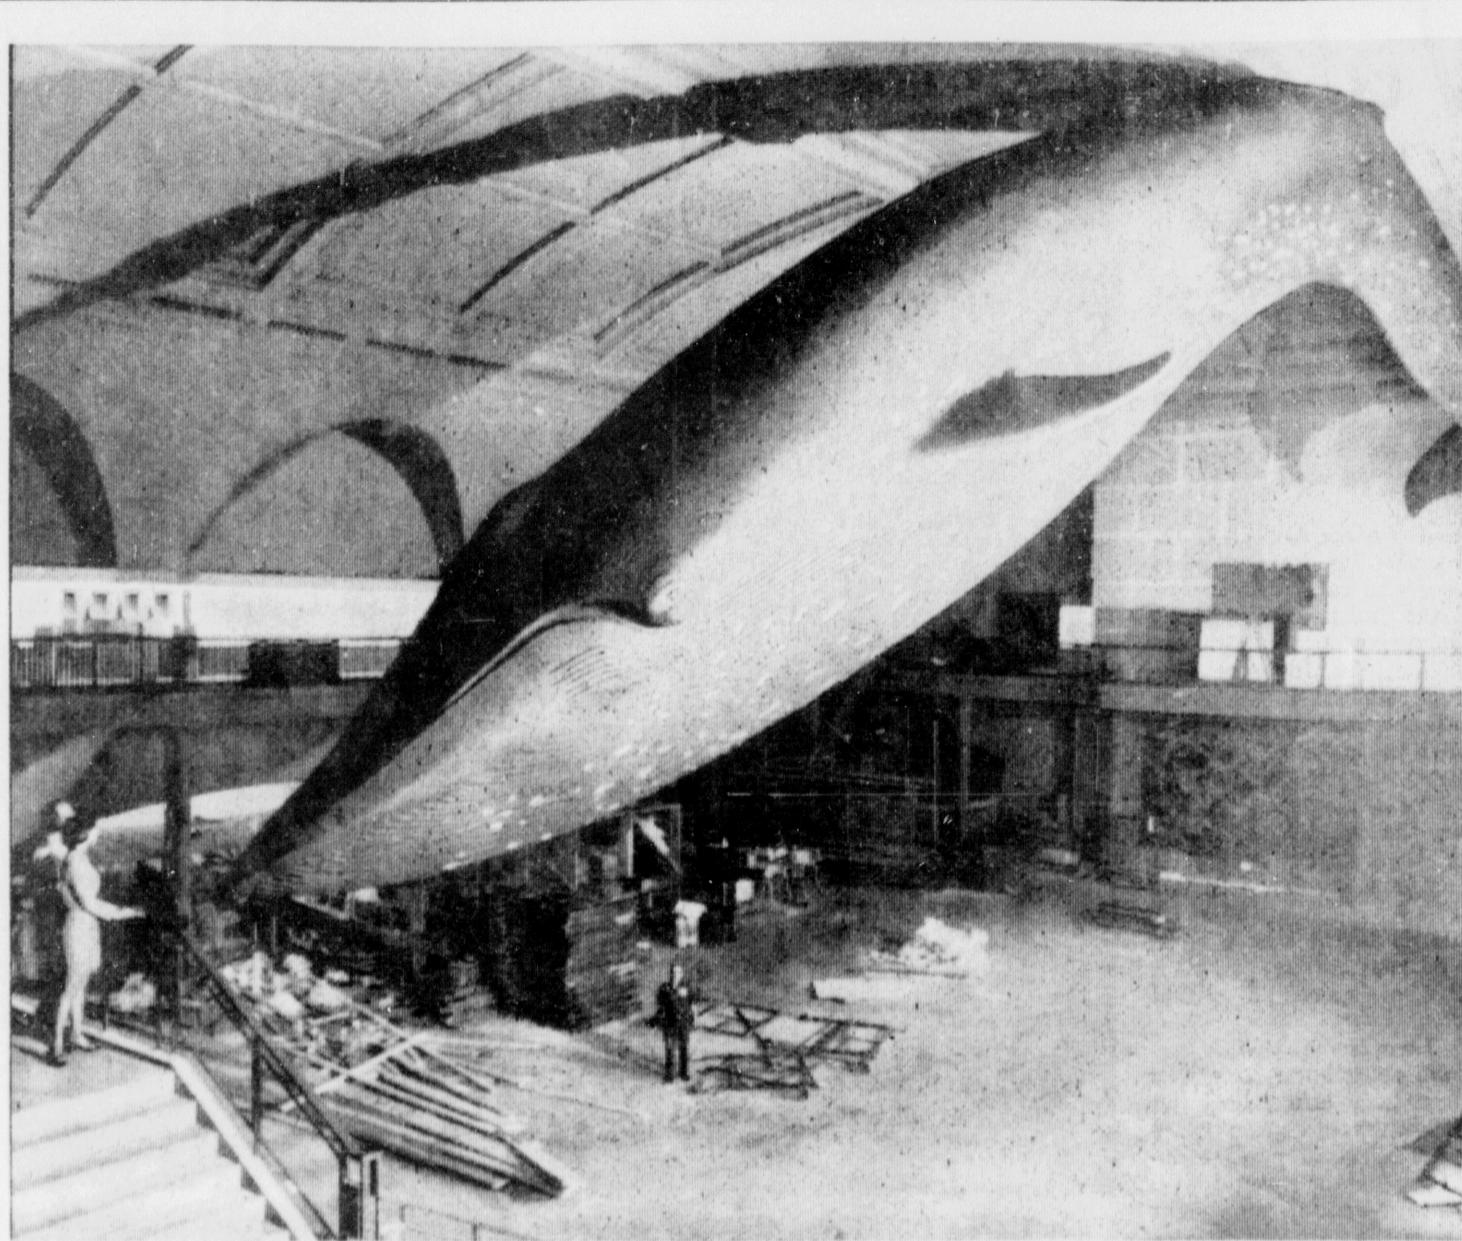

### Killed Because She Wore Bikini

PHILADELPHIA (AP) — Joseph Ivasiatyn, 20-year-old Ukrainian immigrant, admitted in court Monday he stabbed his teen-age wife to death because she went out in the street in a bikini.

The wife, Shirley, 17, was headed for a swimming pool owned by her mother several blocks away.

Ivasiatyn was sentenced to 13 years in prison for voluntary manslaughter.

CLASSIFIED ADS COST LITTLE BUT DO A BIG JOB

THIS REPLICA of a blue whale will be the star exhibit when the new Hall of the Biology of Mammals in New York's American Museum of Natural History opens Feb. 26.

The model has a steel skeleton, polyurethane flesh and a skin of fiberglass. The new girl — it's a female whale — is 94 feet long and weighs 21,000 pounds. (AP Wirephoto)

## Seek Interest Ceiling Of 11%

LANSING (AP) — The Michigan Department of Commerce plans to push for legislation to raise interest rates to 11 per cent.

Michigan law now imposes a 7 per cent ceiling on the rate of interest.

The market for money is now national in scope and money flows easily from one area to another in answer to demand and the per cent of interest paid," the department said Monday. "As a result, Michigan's usury

ceiling rate of 7 per cent is having the effect of restricting the availability of funds to borrowers since higher interest rates are available elsewhere."

In addition, the department said it would propose amendments to allow corporations to own bank stock and to regulate bank holding companies that would come into existence when corporations own bank stock.

"The basic purpose of the recommended legislation is public protection and promoting the economic growth of the state through commercial regulations," the department said.

The department also outlined other legislative proposals it would make in order to:

—Establish a 2½ per cent maximum fee that debt management companies could charge creditors.

—Reduce commissions on sale of mutual fund contractual

plans to 20 per cent.

—Create "pooling facility" to improve the availability of insurance to motorists who are considered high risks.

—Establish and "insolvency fund" to assure settlements of claims against insurance companies that file bankruptcy.

—Develop an airport development loan program to assist cities in upgrading and constructing airport facilities.

—Increase membership re-

quirements of economic development commissions to 2 members.

## Court Takes Up Garnishment

WASHINGTON (AP) — Civil rights lawyers won Supreme Court agreement Monday to look into the garnishment of workers' salaries by finance companies.

The NAACP Legal Defense Fund lawyers picked Wisconsin's garnishment law for their test case. The court will hold a hearing in the new term that begins in October.

In Wisconsin wages can be garnished by a creditor without a hearing or a demonstration of special circumstances. The Defense Fund said this amounted to a taking of property in violation of the constitutional right to due process of law.

The case at hand involves Mrs. Christine Sniadach, 25, of Milwaukee and the Family Finance Corporation of Bay View. The company claimed she owed \$420 and began an action in state courts in 1961.

At the same time, Family Finance filed an affidavit in county court and the Miller Harris Instrument Co. withheld \$3.50 of Mrs. Sniadach's salary. She earned \$65 a week as an assembly line worker.

At no point, Fund lawyers said, was Mrs. Sniadach given a hearing on whether the garnishment was proper and the state law gives her none until the main action is tried.

"Garnishments are a great hardship to wage earners, who cannot afford to lose even 1 per cent or 15 per cent of their wages and still maintain their families, and who are threatened in many instances with being fired if they do not settle scheduled.

## Cheboygan Road Employes Strike

LANSING (AP) — State highway crews moved into Cheboygan County Monday to take over "minimum maintenance" after local workers struck.

Some 51 members of the American Federation of City, County and Municipal Employes picketed the offices of the Cheboygan County Road Commission in a dispute over wages.

State maintenance crews were sent into the area to care for the 122 miles of state highway within the county, the department said. Cheboygan County is one of 62 counties which perform maintenance on state highways under contract with the State Highway Department.

Other state crews will be assigned if a heavy storm hits the county, said Paul J. Marek, maintenance engineer for the department.

Negotiations between the AFMCE members and the county broke off Wednesday, despite efforts of a state mediator, and no further meetings were scheduled.

# Bonn's Friendship Pact Is Humiliating Obstacle

BONN, Germany (AP) — During his visit to West Germany Wednesday and Thursday, President Nixon will see an economic giant caught in a complex national, European and transatlantic tangle.

More than two decades after emerging from World War II, the federal republic still remains far from some of its major goals—above all, reunification with Communist-ruled East Germany.

However, this country of 60 million persons proudly claims fourth position among the world's industrial nations after the United States, the Soviet Union and Japan.

#### Powerless

It is the third largest exporter of industrial goods, ranks among the foremost donors of economic aid, and maintains the

largest NATO force in Europe, with 460,000 men under arms.

Despite its material prowess, West Germany is largely powerless to wield its potential influence because of the stigma of a defeated country striving for rehabilitation among World War II enemies.

Bonn's commitment to a friendship pact with France has proven a humiliating obstacle to taking a mediating role in the current upheaval over the French refusal to admit Britain into the European Common Market. Bonn dare not throw in its full weight with Washington or move too close to London for fear of reviving French antagonisms toward France's foe in three wars in the last century.

Nixon is expected to make a major effort to persuade Georges Kiesinger to join the 89 countries who have signed the treaty banning the spread of nuclear weapons.

But prospects are dim that Nixon can completely allay West German fear of possible

#### AP Photographer Loses Right Eye

DA NANG, Vietnam (AP) — AP photographer Dang Van Phuoc lost his right eye Monday when an enemy hand grenade exploded near his face. A veteran of three years of combat assignments, he had been wounded three times before in the Vietnam war.

The 26-year-old Vietnamese photographer was on a sweep with a ranger battalion south of Da Nang when a fire fight broke out. An enemy hand grenade was hurled at nearly point blank range, and a fragment cut into Phuoc's face, slashing his right eye and nose.

More than 95 per cent of a jellyfish is water, but it is combined with organic substances and mineral salts to form a strong jelly.

#### Question Stumps Museum Expert

PHILADELPHIA (AP) — Museum visitors ask lots of curious questions.

For instance, two elderly women touring the Philadelphia Museum of Art were fascinated by a trickling 11th century French marble fountain.

Where does the water come from, asked one. A museum guide explained that an electric motor kept recirculating the water.

That's fine, said the woman; but how did it work back in the 11th century.

The museum still is trying to answer that one.

#### See New Era

Bonn leaders see hope of a new era in relations with Washington.

Ties with America were at the prime during the Eisenhower Administration. Chancellor Konrad Adenauer formed a close personal friendship with Secretary of State John Foster Dulles that left a strong impression on West German policies.

Nixon has shown strong interest in West Germany, particularly since the Warsaw Pact invasion of neighboring Czechoslovakia.

He last visited this country privately in 1967 when he held a lengthy meeting with Kiesinger.

Both men voiced deep satisfaction with the talk.

## Announce Oscar Nominations

HOLLYWOOD (AP) — The movie academy today announced its Oscar nominations, including, for best picture of 1968, "Romeo and Juliet," "Funny Girl," "The Lion in Winter," "Oliver!" and "Rachel, Rachel."

Winners will be announced in nationally telecast ceremonies April 14.

Other top nominations:

For best performance by an actor in a starring role: Alan Arkin, "The Heart is a Lonely Hunter"; Alan Bates, "The Fixer"; Ron Moody, "Oliver!" Peter O'Toole, "The Lion in Winter," and Cliff Robertson, "Charly."

For best performance by an actress in a starring role: Katharine Hepburn, "The Lion in Winter"; Patricia Neal, "The Subject Was Rosies"; Vanessa Redgrave, "Isadora"; Barbra Streisand, "Funny Girl," and Joanne Woodward, "Rachel, Rachel."

#### Martinez Gives Back \$12 Million

NEW YORK (AP) — Jose Martinez found a friend at Chase Manhattan bank. A teller gave him \$2 million by mistake. Then Chase Manhattan found a friend in Jose Martinez. He gave it back.

It seems that Martinez asked for a \$12 million order to pay two months dues to his chef's union. The bank made out the money order for \$2,000,000.

Martinez took the money order back Monday and was given a very cordial reception, some sincere thanks—and a correct order.

Newspaper Want Ads are a big sell! One billion, twenty-one million was spent on classified ads last year . . . more than for all magazine advertising combined and more than 300 million more than radio advertising.

He last visited this country privately in 1967 when he held a lengthy meeting with Kiesinger.

Both men voiced deep satisfaction with the talk.

## 4-DAY SALE ENDS SATURDAY, MARCH 1ST!

**MONTGOMERY WARD**

### 69.99 decorator print firm foam\* mattress

**49.99**

Twin or Full, Each

#### WARDS "DREAM KING" STYLE

FOAM\* has 5" Word-Foam\* core. Both in quilted decorator print covers. 69.99 matching box springs, now . . . 49.99

\*Lab-tested urethane foam

Rich walnut-finished two-shelf bookcase

Shelves adjust for deep books. 30" x 30" x 10".

## Lumber Prices Jumped 30 Per Cent Last Year

While lumber price increases are outrunning general inflationary trends at the moment, their impact on home prices may have been over emphasized, according to the National Forest Products Association.

Citing an article in the Washington Post of Feb. 17 as an example of data confusion, Dr. John Muench, Jr., NFPA economist, pointed out that although lumber accounts for about 20 per cent of the total construction cost for a typical single family dwelling, it accounts for only 10 per cent of the final selling price of such a home. The Post had applied the 20 per cent factor to the final selling price in blaming lumber for inflationary influence on homebuilding.

Muench said: "A rule of thumb is that each 10 per cent change in lumber prices leads to a one per cent change in the selling price of a home. Increases in the cost of land, labor, financing and other building materials also have added dramatically to recent homebuilding costs."

### Jump 30 Pct.

Softwood lumber prices rose spectacularly in 1968. Production topped 30 billion board feet, an increase of 8 per cent over 1967's output and the highest production level since 1959. The Bureau of Labor Statistics' wholesale price index

for softwood lumber rose 30 per cent from December 1967 to December 1968.

According to NFPA, lumber price trends have resulted chiefly from two basic causes: Strong demand, as evidenced by decade-high levels of shipments and orders, and a relatively inflexible supply resulting from log shortages to industry sawmills.

Housing starts in 1968 were the highest since 1963.

Coupled with this is a record level for non-residential construction in 1968.

Severe export competition for softwood logs in the Pacific Northwest, combined with domestic log demands, drove the price for standing timber to highs beyond all predictions. Average stumpage prices for Douglas fir timber on national forests in the Pacific Northwest increased from \$43 per thousand board feet in the fourth quarter of 1967 to \$90 per thousand in the fourth quarter of 1968. Other species showed similar percentage increases.

### Log Export Curbed

Log exports in 1968 totaled 2.2 billion board feet, an increase of 35 per cent over the export volume for 1967. While the so-called Morse Amendment to the Foreign Assistance Act of 1968 is expected to eventually make more logs available to domestic manufacturers, Dr. Muench explained that the export supply pipeline will first have to be drained of timber already under contract. The Morse Amendment limits the export of logs from federal timberlands in the West to 350 million board feet a year on sales made after Jan. 1, 1969.

While these supply problems work hardships on mills in the Northwest, their impact extends to softwood lumber prices from the South and Canada, as lumber buyers compete with one another when searching for new sources.

Dr. Muench believes the key to domestic lumber problems lies with under-utilized national forests and other federal timberlands. He pointed out that about 60 per cent of the standing softwood sawtimber in the U.S. is on federal lands. Forest Service Chief Edward P. Cliff, testifying before a Senate committee in November, said the allowable cut on national forests could be increased two-thirds if funds were available to intensify timber management.

The reason for the "Bum Day" was not immediately apparent.

Jay Frazier, 14, suffered a broken leg when Negro students poured out of the school and headed through downtown streets after being ordered by school officials to go home until they changed their clothing, according to police.

In addition, Keith Loudermilk, 18, suffered a skull fracture. Frazier and Loudermilk both are white, police said.

Six youths of high school age were arrested, although police said it appeared there were other than students in the school when the disturbance broke out.

One policeman was treated and released with minor injuries he suffered while making an arrest. A meeting of the local branch of the National Association for the Advancement of Colored People brought a plea from the group's president, Louis Perry, for Negro students to stay away from school today.

The move was not intended as a boycott, Perry said, but as an effort to cool things down."

### Try To Require Car Litter Bags

LANSING (AP) — An ash tray won't do.

Cars manufactured after Jan. 1, 1971, would have to have some type of waste receptacle too, under terms of legislation introduced by Rep. Lucille McCollough, D-Dearborn.

"Opponents may say that equipping cars with waste receptacles would be expensive, but it would not be as expensive as it is cleaning up roadside litter," Mrs. McCollough said.

"The state spends great amounts of money each year picking up litter along our highways," she added. "We could use that money in better ways."

Similar legislation introduced last year failed to make it to the House floor for a vote.

### THE LITTLE WOMAN

"We haven't met our new neighbors yet, but I understand he's in the sign business."

## Concessions Cool Berlin Crisis

BONN, West Germany (AP) — The latest Berlin crisis eased Monday after both West German

and East Germany offered concessions.

The situation was this: If West Germany calls off plans to elect its next president in West Berlin March 5, then East Germany will allow West Berliners to cross the wall into East Berlin for the first time in three years to visit their relatives during Easter.

West German Chancellor Kurt Georg Kiesinger accepted the Communist offer to negotiate but indicated he wanted a "lasting settlement" going far beyond Easter.

Informed sources said a decision had to be reached quickly if the elections were to be relocated.

East German leader Walter Ulbricht made the offer of concessions this weekend through the Soviet Ambassador to West Germany, Semyon Tsarapkin, who met in Stuttgart Sunday with Kiesinger for the second time in 24 hours.

Tsarapkin told Kiesinger that shifting the election to a city inside West Germany would be "a

contribution to detente and toward promotion of better S

oiet-West German relations."

### Ideas Pay Off

DETROIT (AP) — The Ford Motor Co. reports it paid \$3 million in 1968 to employees who came up with ideas to save the company money or improve its products. The payoff includes money, new cars, appliance and garden tractors.

## GLADSTONE

## Gladstone Man Works On New 'Super Radar'

VALPARAISO, Fla.—A Gladstone man is playing an important role in the operation of the Air Force's newest and most advanced space surveillance "super radar" that can detect and track more than 100 satellites, missiles and other objects in space almost simultaneously.

U. S. Air Force Capt. Mark M. Buckman, son of Mrs. Julia Strader of 701 Minneapolis Ave., Gladstone, is an intelligence officer at the Aerospace Defense Command's (ADC) gigantic new "phased array" radar facility at Eglin AFB, Fla., that became operational this month.

M. Sgt. Gilbert M. Johnson, whose wife, Patricia, is the daughter of Gus Moberg, Rte. 1, Ensign, is a radar technician at the same installation.

The first electronic sensor specifically designed to detect and track objects in space, the new radar provides capability for rapid warning of missile attack aimed at the southern United States. It also assists in American space missions by precise location of earth-orbiting objects so that astron-

Capt. Mark M. Buckman

auts and other space vehicles can be positioned to avoid them.

structure whose vertical side measures 13 stories high and whose sloped side, larger than a football field, houses approximately 10,000 small transmitting and receiving antennas under its styrofoam face.

The new sensor is called "super radar" because it performs the functions of many types of radar simultaneously with no moveable antennas. It employs the new "phased array" principle wherein a beam of energy from the many transmitters in its sloped face is directed electronically by computer without need for the familiar rotating and rocking antennas of conventional radar.

Information gathered by the phased array radar is relayed automatically to the North American Air Defense Command Space Defense Center inside Cheyenne Mountain near Colorado Springs, Colo. There it is correlated by computer with information from other world-wide network of electronic and optical space surveillance sensors to provide an up-to-the-minute catalog of the exact position of all earth orbiting space objects.

Personnel of Captain Buckman's squadron were in training for a year before taking over operational and maintenance responsibility for the nation's newest space age defense facility.

A 1949 graduate of Gladstone High School, Buckman received his B. A. degree in psychology from Michigan State University and was commissioned there in 1954 through the Air Force Reserve Officers Training Corps program. He earned an M. A. degree in education in 1961 from the University of Michigan.

Captain Buckman's wife, Marilyn, is the daughter of Mr. and Mrs. Rex Coulter of Gladstone.

# Women's Activities

## Suzanne J. Cathcart, Donald Allardyce Wed

The chapel at the Central white chiffon dress with blue United Methodist Church in trim and blue headpiece. She Escanaba, was the setting Saturday, Feb. 22 for the wedding blue and white carnations. of Suzanne J. Cathcart and Gordon Allardyce of Dear-Donald S. Allardyce.

The Rev. Robert L. Selberg performed the double ring ceremony at 4 p.m. before an altar adorned with arrangements of white mums and gladioli. Soloist for the service was Mrs. Kenneth Benson and traditional organ music was provided by Mrs. Chester Carlson.

The bride is the daughter of Mr. and Mrs. Alex T. Cathcart and the bridegroom is the son of Mrs. James E. Allardyce and the late James Allardyce.

### Lace, Taffeta

The bride, given in marriage by her father, was attired in a white lace over taffeta gown, fashioned with modified scoop neckline and floating back panel. Her shoulder length veil was secured to a a at the reception which was pearl trimmed rosette and she carried a bouquet of blue and white carnations.

Miss Betty Caron was the Mayrand asked the blessing maid of honor and wore a gown styled with a scoop neckline and bell-shaped skirt accented with a bow at the front waistline.

A circlet headpiece with front bow and blusher veil and of Dearborn Heights, Mr. and matching shoes completed her attire. She also carried a bouquet of blue and white carnations.

### Flower Girl

Little Diane Allardyce was the flower girl and wore a Gladstone.

## Plan Local World Day Of Prayer Service

World Day of Prayer sponsored by Church Women United will mark the time when millions of women will further close the gaps, national, racial, economic, and religious that divide us.

The local service will be held Friday, March 9 at 2 p.m. at the First Presbyterian Church in Escanaba. All women are invited.

Significant as a "barrier breaker," is this year's date. The first Friday in March has been established as the official date for this international celebration, since Lent comes at a different time for the Orthodox communions. To make World Day of Prayer truly ecumenical this adjustment was made.

This year's theme, "Growing Together in Christ," was chosen out of the experiences of women from Africa, a continent rich in national development yet also torn by conflict and racism. The moving lines of the African spiritual, "Kum Ba Ya," will resound throughout the service.

Women in 130 countries, territories and protectorates will join in a common plea to overcome prejudices and responsibility utilize their increasing knowledge and power for the sake of, rather than against, one another.

In many communities World Day of Prayer has marked the turning point toward an ecumenical concern. Worldwide justice and peace are the goals.

Offerings will be used to educate women in 13 Christian colleges in Africa, Asia and Latin America and to welcome 40,000 students coming from abroad each year to study in the United States. Nationally, migrant farm workers are aided, as are Indian-Americans in off-reservation colleges.

## Altar Society Meets Wednesday

St. Joseph's Altar Society will hold their monthly meeting Wednesday, Feb. 26 at 8 p.m. in the parish hall.

Mrs. Clinton Priester and Mrs. Frank Beaudry are in charge of the social and they will be assisted by the Mesdames, Olive Bartley, Thomas Kristo, Charles Propst, Palmer Derouin, Clarence Vogel, V. Johnson, Mary Buchholtz and Robert Forton.

## Rock School Homecoming Set This Weekend

Rock School Homecoming dance will be held at the Rock High School gymnasium Saturday, March 1 from 9 p.m. until 12 midnight. The Riot Squad will furnish the music for dancing. Dress will be semi-formal and formal.

The Pep Club is in charge of the festivities and is using "This Magic Moment," as the theme for the dance and decorations. The King and Queen will be crowned at the dance.

King and queen candidates are Mike Delke and Suzie Leach, seniors; Larry Koski and Cheryl Larson, juniors; Dan Connors and Susan Laitinen, sophomores; and Craig Westlund and Joanne Niemela, freshmen. Elections will be held Wednesday at the school, at which time each candidate will give a short talk. All candidates will be introduced during the Perkins-Rock game Friday night at the Rock School.

Parents night will also be observed Friday night. Parents of players and cheerleaders will be introduced. Mothers will be presented a corsage and fathers honored with a boutonniere.

## Births

SLAGSTAD — Mr. and Mrs. William Slagstad of 1120 6th Ave. S. welcomed their first child, a son, at 1:04 p.m. on Feb. 23. The infant weighed 7 pounds at birth and has been named Trevor John. The mother is the former Sherilyn Arvey.

PAULLIN — Mr. and Mrs. Robert Paulin of 2701 5th Ave. S. are the parents of a daughter, their first child, born at 6:42 p.m. on Feb. 23. The infant has been named Lisa Ann and she weighed 7 pounds and 6 ounces at birth. Mrs. Paulin was Jean Thompson.

BRUCE — At 12:12 a.m. on Feb. 24, a daughter, Pamela Sue, weighing 8 pounds and 4 ounces, was born to Mr. and Mrs. Edwin Bruce of Arnold. The mother is the former Linda Richards.

The service will consist of a brief meditation, prayers and organ music played by Mrs. Clovis Colving, church organist.

The meditations will be given by the following persons: Feb. 26, Peter Mitchell; March 5, Dr. William Butt; March 12, Mrs. Luther Barrett; March 19, Mrs. Konstantin Wipp; March 26, Mrs. Marlin Roberts.

The Rev. Konstantin Wipp is the pastor. These non-time Devotions are open to all people who wish to use this opportunity for spiritual enrichment.

## Ballet Camp

Ballet enthusiasts between the ages of 8-16 will have the opportunity to take part in a concentrated program of dance being offered this summer at the Birch Knoll Ballet Camp near Eagle River, Wis. The camp will present a five week and seven week program of dance instruction and a supplemental program of fine arts and camp activities designed for youth.

The Ballet Camp will be directed by Bernard Johansen, chairman of the Department of Ballet, College of St. Theresa, Winona, Minn.

If you want that meat-coating of egg and fine crumbs to stick extra well, chill the meat after coating and before cooking.

# Harbor Project At Manistique Cut By \$43,000

MANISTIQUE — Manistique's proposed harbor improvement program is under scrutiny by the Waterways Commission for possible approval today.

Mayor Leo DeMars told the Council Monday night that the total cost of the project had been reduced \$43,000 from an original estimate of \$280,000. Total harbor renovation is now estimated at \$237,000 with a split 90 per cent federal participation to 10 per cent city.

DeMars referred to a letter from Kenneth Buckland of Northern Michigan Engineers, Inc., Escanaba, in which Buckland listed a revised proposal submitted to the Waterways Commission.

The firm conducted the preliminary engineering survey of the Manistique harbor in December.

#### Revisions Listed

The new proposal decreases east side harbor bin wall construction to 100 feet, pares the city share of an Addressograph machine used by city, county and township offices.

Before adjourning, council approved a resolution to the city housing commission requesting reimbursement of \$2,500 for a water line into the new senior citizens housing project. The Housing Commission will ask the Housing and Urban Development Administration for the \$2,500.

West side harbor changes include revision of an access road and parking lot to accommodate a minimum of 72 cars and trailers, plus other minor changes. Total west side cost is estimated at \$45,000.

City Manager Robert Nee said he is working on admissions policy requirements for tenants in the new low-income rental units scheduled to be ready for occupancy this fall.

Council discussed the listing for sale of the public safety

PART OF THE HUGE CROWD at the International Gold Cup snowmobile races lines the western straightaway of

the oval course Sunday. An estimated 7,000 to 8,000 spectators saw the race program. (Daily Press Photo)

#### Format To Be Reviewed:

## Gold Cup Won't Rest On Laurels

Snowmobile racing in Gladstone, three years old last weekend, keeps getting bigger as it gets older, but members of the committee indicated today that they do not plan to "stand pat" just because the International Gold Cup program was a success.

General Chairman Tom Aos said the overall format of the two-day program of racing will be reviewed with the thought of making refinements which will benefit both the contestants and the spectators.

"My most firm recommendation will be for a better public address system," Aos said. "We thought we had the problem licked this year, but then we had to relocate the track."

Aos said that a strong public address system is needed to keep the crowd informed of developments on the track over the noise generated from the

snowmobile engines.

Art Anderson, who worked both days lining up drivers at the starting line, and Aos both commented that the committee would look in to the possibility of running different types of races next year.

In past years, they said, a

good cross country course was needed to attract drivers—that most drivers wouldn't drive long distances just to run in an oval race. That feeling, however, appears to be changing.

In the Gold Cup competition, for example, there was a larger entry on Sunday than for Saturday's 30-mile cross country race, a fact largely attributed to dangers in running through wooded areas on a difficult cross country layout.

Aos said the committee would look into the possibility of running drag races on straightaways and also into a slalom-type course for next year before adopting a race format.

Both drag racing and slalom racing would be more attractive to spectators than a cross country event where viewing is limited to the start and finish.

Saturday's crowd at the Gold Cup was small when compared to the throng which watched Sunday.

Overall, however, both Aos and Anderson expressed pleasure over the weekend, which saw some 297 entries over both days.

"I was pleased with the number of contestants," Aos said, "and we had very, very few complaints or problems."

The few protests that were lodged were resolved satisfactorily.

Throughout the community, the snowmobile program kept motels and restaurants busy during the weekend.

## Weather OK For Apollo 9

CAPE KENNEDY, Fla. (AP) — The Apollo 9 astronauts

sharpened their skills in a spacecraft trainer today as the weatherman predicted favorable conditions for their scheduled Friday blastoff for 10 days in earth orbit.

Wearing bulky spacesuits, Air Force Cols. James A. McDivitt and David R. Scott and civilian Russell L. Schweickart climbed into the trainer to rehearse emergency actions they might have to take if their Saturn 5 rocket fails during launch.

They also conducted extensive systems familiarization work.

The manned space flight meteorology office forecast partly cloudy skies, winds up to 17 miles an hour and temperature in the low 60s on Friday morning.

The astronauts' main job on the earth-circling journey is to test the lunar module, LEM, the new city hall and low income rental housing projects which are under construction, a phosphorus removal plant and the extraordinary expenses incurred with snow removal this winter.

He also pointed out that the city is fulfilling its original obligation by contributing utilities to center operation. In May, 1966, one year before the center opened, Council agreed to underwrite the utility expense.

Carlson, who also voted against the funding, said he is not against the center, but that

the city does not have the additional money and "I don't know where we'd find it."

#### Cites Projects

He mentioned city involvement in other projects with unforeseen financial obligations, including the harbor and street improvement programs, Weston Ave. relocation, the new city hall and low income rental

housing projects which are under construction, a phosphorus removal plant and the extraordinary expenses incurred with snow removal this winter.

He also pointed out that the city is fulfilling its original obligation by contributing utilities to center operation. In May, 1966, one year before the center opened, Council agreed to underwrite the utility expense.

Carlson, who also voted against the funding, said he is not against the center, but that

the city does not have the additional money and "I don't know where we'd find it."

Asked what he thought about the use of recent four-letter obscenities in the Michigan State University students newspaper, Milliken replied that they were "highly objectionable and obnoxious."

"It's difficult to understand why individuals find it necessary to express themselves publicly in those terms," the governor said.

"But I will say that the universities in this state have dealt with this problem in a very responsible and constructive way."

"I find it personally objectionable to see that in print, but I insist that the universities must handle this matter internally as they are handling it internally."

The Democratic State Central Committee adopted an official position last weekend favoring abortions for any woman who desires one, with the only qualification being that it be performed in a licensed hospital.

Several abortion bills are expected to be introduced soon in the Legislature.

On the subject of student dissenters in high schools and colleges, Milliken told his news conference he believed there should be open lines of communication between the students, faculty and administration officials.

"I think any institution that ignores the need for that is inviting trouble," the Governor declared.

"I think students have a legitimate interest in the curriculum and the conditions under which

they receive an education."

## On The Sidelines

With Mike Utt

Jack Drees, well-known CBS Sports announcer, was in Gladstone Saturday to act as Grand Marshall for the International Gold Cup Snowmobile Race parade and to watch his first snowmobile competition. He also took time to comment on the competition at Gladstone and to talk about some of the major issues in sports at the present time.

Drees, who took his first ride on a snowmobile Saturday, was quite impressed with the speed and power of the machines and how so many of the youngsters could control them as well as they do. He said that while riding on a snowmobile, the illusion of speed is even greater than it actually is because of the speed in which the ground seems to skim by you and the noise of the machine. Drees also noticed that the machines seemed to be hard to tip over.

Drees thought Gladstone had an ideal setup for snowmobiles competition although the cross-country race was a little hard to see from a spectator's view-point. He said that even the spectators were able to overcome the obstacles in watching the cross-country race by using their own machines to go into the woods and see a bit more.

The famous sportscaster also talked on how surprised he was when the Washington Senators named Ted Williams as manager of the ball club. He felt the big factor in Williams' decision to return to baseball was the money which the Senators offered him although Williams once said the only team he would ever want to manage would be the Junior Legion team in his home town of San Diego.

On the present strike of major league baseball players against the owners, Drees felt that the owners were exerting great mental pressures on the players by saying there might not be a baseball season this year or by building up the rookies that had turned out for spring training and saying that the teams would enter the season by using the players that are now practicing.

Drees also felt that the players were beginning to weaken since some of the big-name stars were quoted as saying they would report to training. Actually, the players, Drees felt, only want it spelled out for them exactly how much of a percentage and share of TV money they were going to receive. Drees saw a quick ending to the strike, because, as he put it, "The owners and players are just nickels and dimes apart." He really didn't mean nickels and dimes, of course, but when talking about the kind of money the players are trying to get and how much the owners are offering, it seems nickels and dimes apart.

Drees impressed me as being a very intelligent man and not one who goes around saying things about which he knows nothing about. He has a vast knowledge of sports and was very interesting to listen to. He is the type of person somebody could listen to all day and never get tired of hearing what he has to say.

## Canham Says Majors Ruining College Game

ANN ARBOR, Mich. (AP) — League champion St. Louis Cardinals.

"This type of thing is happening throughout college baseball and its time they took an intelligent approach to recruiting," Canham said. "Pro football did it years ago by agreeing not to sign college players until their class had graduated."

Canham threatened that all colleges would find it necessary to stop cooperating with professional baseball unless the majors adopt a similar rule.

"Disturbing," said Michigan baseball coach Moby Benedict of the wave of signings. "We work with these boys a year or two and then they (the major leagues) come in and take them. It hurts Big Ten baseball and in many cases terminates or causes damage or delays to the education of the boys."

Canham said a major league rule which prohibits the signing of college players until they are 21 is inadequate. "Most college juniors are 21 during the spring. They can still step in and take them, and they do."

The Wolverine athletic director added that signings by the pros hurt college baseball attendance. "They sign all the exceptional and colorful players and the attraction of college baseball disappears for the fans," he added.

## Eskimos Get Bye

Escanaba has drawn the bye in the Class A District basketball at Sault Ste. Marie next week. The Eskimos will play the winner of Wednesday's Marquette - Soo game on Friday, March 7, at 7 p. m. CST or 8 p. m. EST.

## OUR BOARDING HOUSE with Major Hoople

## OUT OUR WAY

by J. R. Williams

## Disobeys Police Signal: Jailed

Michael Dennis Goldi, S. Second St., was found guilty by a District Court jury Monday afternoon on two counts: failure to obey the signal of a police officer and operating an unregistered snowmachine on city streets. Both offenses occurred at the same time.

Goldi, who was not represented by counsel, was ordered to pay a fine of \$75 and costs of \$25 and serve 10 days in the county jail on the first count. He was also fined \$40 and court costs of \$30, or 30 days in jail, on the second charge: operating an unregistered snowmachine on city streets.

Charges were brought by Public Safety officers on both counts. Goldi entered a not guilty plea when he was arraigned in District Court on Jan. 30.

Serving on the jury were Stella Potvin, Lola Steele, Lois Phillips, Joseph Gardipee, John Ozanich and Howard Holland.

George Thomas Smith, 303 N. Houghton, pleaded guilty to driving a vehicle while under the influence of intoxicating beverages and was fined \$70 and costs of \$30 when he appeared in District Court Monday.

Smith's fine was paid but his driving privileges were indefinitely suspended.

Charges were preferred by Manistique Public Safety officers.

## MANISTIQUE

## Rep. Varnum Speaker At Basketball Banquet

come and Karlene Smith asked the invocation.

Following the six o'clock family-style dinner, basketball players, varsity cheerleaders and their parents heard a short address by Rep. Charles Varnum.

MHS principal Marvin Fredrickson and Supt. Edwin E. Wuehle also addressed the gathering. Marcia Hubble concluded the program with closing remarks.

Guests of the Student Council included the following team members and their parents:

Larry Davidson, William Leveille, Tony Ebti, Marvin Miller, Russell King, Thomas Jenerou, Keith Aldrich, Robert Males, William Rubick, Gary Webber, Albert Goudreau, Kendall Neeson, Peter Lequia, and Mike Demars.

## Minor Mishaps Over Weekend

Two minor accidents were investigated by Michigan State Police over the weekend. Minor property damage was reported in both accidents and no personal injuries.

Louis Miller of Cooks was cited for no proof of insurance after his vehicle collided with a car driven by Arthur Coe of Cooks. The mishap occurred at 12:25 a.m. Saturday in Delta County on County Road 495.

Miller told troopers he spun sideways while attempting to negotiate a curve and the Coe vehicle, approaching his car, was unable to stop in time to avoid collision.

Jon Gardner, Rte. 1, Manistique, was ticketed for failure to yield the right-of-way and no operators license after his auto struck a car driven by Karen Vallier, 107 River St.

The mishap occurred at 4:30 Sunday afternoon on an unnamed county road in Thompson Township near the Big Springs.

## Hospital

Admitted to Schoolcraft Memorial Hospital were Millie Sellman, Roy LeMaster, Mary Lamirand, Robert Hedgen, Keith Schroeder, Pat DeMars, Gregor MacGregor, Donald Tennant, Avis Anderson, Vernon Generou and Melvin Dixon.

Discharged were Mary Mattlin, Brad Nordin, Nancy Cheyney, Mary Magoo and baby, Mary Curran and baby and Alfred Cayia.

## City Briefs

Henry Sheldon of Pompano Beach, Fla., returned Monday after spending the weekend with his mother, Mrs. William Sheldon and sister, Florence, N. Third St. Mrs. Earl Hartman of Saginaw, the former Mabel Sheldon, is visiting with her mother and sister for a week.

## Five Servicemen Lost In Vietnam

WASHINGTON (AP) — Two Michigan servicemen were among 83 killed in recent Vietnam action, two more were found dead as a result of hostile action and one died not as a result of hostile action, the Defense Department in Washington reported Monday.

Killed in action were Army Pfc. Cleveland E. Dykes, son of Mr. and Mrs. Cecil Dykes of Muskegon and Army Pfc. Ernest L. Kauffman, son of Mr. and Mrs. Henry H. Kauffman of Vandalia.

Changed from missing to dead were Army WO 1 Larry A. Boddell, son of Mr. and Mrs. Clayton R. Boddell of Wyoming and Army Spec. 4 James T. Fields, son of Mr. and Mrs. Lawrence W. Fields of Plymouth.

Army Spec. 4 John W. Poe, son of Mr. and Mrs. Joe P. Poe of Hazel Park, died not as a result of hostile action.

## Schoolcraft County EVENTS AND NOTICES

The Methodist WSCS will sponsor a pasty sale at the Church and Gamble Store on Thursday, Feb. 27. Phone advance orders to 341-5491 or 341-5812.

The VFW will accept donations for a rummage sale to be held on March 20 — clothes, dishes, furniture, books, toys, etc. Items may be left at the VFW Hall or the Surplus Store, Call 341-2375 for pick-ups.

World Day of Prayer "Growing Together in Christ" at Zion Lutheran Church Friday, March 7 at 2 p.m. All ladies of the community are invited.

Alcoholics Anonymous meet every Sunday night in Manistique. For further information write Post Office Box 3, Manistique.

## BERRY'S WORLD

"Just remember—Vince Lombardi and Ted Williams came to Washington under the NIXON administration!"

# Maravich Held Down As Vols Whack LSU

By The Associated Press

Forgive Pete Maravich if he's losing his taste for Chow Mein and Chop Suey. It's just that Pistol Pete has had a stomach full of Tennessee's Chinese Defense and there's just no room for seconds.

Maravich, the Louisiana State hotshot who is the country's leading collegiate basketball scorer, was shackled in Tennessee's specially rigged defense again Monday night. He was limited to 20 points — his lowest output of the season, as the Volunteers whacked LSU 87-63.

It was the fourth time in his career that Maravich has faced Tennessee's Chinese Defense

and he's never managed more than 21 points against it.

In other major games Monday night, sixth-ranked Kentucky bombed Alabama 108-79, St. Bonaventure battered Seton Hall 97-79, Michigan tripped Minnesota 83-79, Washington dropped Stanford 58-45, and Kansas shattered Oklahoma 83-58.

Also, Missouri squeezed past Kansas State 66-62, Nebraska ripped Colorado 79-65, Auburn edged Georgia Tech 87-85, Mississippi topped Florida 79-77, Texas-El Paso dropped Seattle 88-82, Washington State walloped California 84-66 and Geor-

gia defeated Mississippi State 95-80.

Tennessee's Chinese Defense is a four-man zone with the fifth defender shadowing Maravich. Tuesday night, the shadows were Bill Hann and Rudy Kinnard and they limited Pistol Pete to 18 shots from the field — less than half of his usual total. Maravich hit eight field goals and was 4-for-8 from the foul line.

With Maravich silenced, Tennessee just wore LSU down. The Volunteers led by 25 points at halftime and coasted to their 12th Southeastern Conference victory against just three losses.

Kentucky had just as easy a time against Alabama, running up a 30-point first half lead against the overmatched Crimson Tide.

Dan Issel had 35 points, Mike Pratt 20 and Mike Casey 18 for the Wildcats, who are 20-3 and hold a two game SEC edge over Tennessee. Tommy Suits led Alabama with 21.

Kentucky played Alabama at home Monday night and travels to Vanderbilt Saturday. St. John's visits Holy Cross tonight, meets New York University Thursday night and entertains formidable Notre Dame Saturday.

Lanier poured in 51 points shattering the single game, St. Bonaventure scoring record in the romp over Seton Hall.

Lanier, the 6-foot-11 giant, hit on 20 of 29 field goals and 11 of 13 from the foul line and pulled down 20 rebounds as well. He broke the school's nine-year-old scoring record of 48 points held by Tom Stith.

Dale Tepas added 16 points on eight field goals in as many attempts for the Bonnies, who are 15-7.

Kansas, ranked 13th, charged into the Big Eight lead by routing last place Oklahoma while two other contenders, Colorado and Kansas State, both lost.

Sophomore Dave Robisch scored 27 points for the Jayhawks, who lead the conference race by one game over Colorado and 1½ over Kansas State.

Louisville climbed from 13th to 11th; Villanova slipped from 11th to 12th; Kansas soared from 16th to 13th and Illinois vaulted from 19th to 15th. New Mexico State, Tennessee, Marquette and Tulsa occupied the No. 16, 17, 18 and 19 spots.

## State Police List Promotions

EAST LANSING (AP) — Catton Flint post commander, Michigan State Police have announced the promotion of six officers, including S. Sgt. William Cram, East Lansing post commander.

Cram was promoted to lieutenant and assigned as assistant commander of the civil defense division at East Lansing headquarters. He succeeds Lt. Harold W. Simmons who is retiring.

S. Sgt. Glen C. Perry of the operations division at headquarters will succeed Cram as post commander at East Lansing.

Other promotions and transfers included: Capt. John N. Brown, deputy director commanding the bureau of staff services, East Lansing, promoted to major; S. Sgt. George A.

## Advise Spending Bulk Of Pollution Bonds On Building Sewage Plants

LANSING (AP) — A special legislative subcommittee has recommended that more than three-fourths of the \$335 million water pollution bond issues should be spent for construction of sewage treatment works.

The remainder should be spent on lateral sewer construction, the committee said.

"The committee, after many meetings with interested organizations and state department representatives, recommended in addition to the two bills im-

plementing the \$335 billion state water pollution bond issue, so that individual grants would not total more than 25 per cent of the cost of the sewage treatment plant.

The 25 per cent state grant, coupled with a 30 per cent federal grant, should pay for 55 per cent of the cost of construction, Smit said.

For sewer construction, the grant should total "50 per cent of that portion of the sewer project cost that exceeds 10 per cent of the assessed valuation of the community served," the committee said.

In addition, passage of seven related bills would permit:

—Townships to be included in governmental units permitted to sell bonds for waste treatment works.

—Local governmental units to sell court order bonds if ordered by the Water Resources Commission to abate pollution.

—Village and fourth class cities to sell general obligation bonds if approved by a simple majority of voters instead of a two-thirds of three-fifths vote of electors.

Many who have tried this new discovery give glowing reports of how they now "soak away" much of the agony of knotted muscles and stiffness right in their own bathtubs — just as though they were bathing at one of the world's famous Mineral Springs. In fact, millions of people who have been travelling to distant Health Spas for pain relief — on the advice of their physicians — may soon be saved this bother and expense. Thanks to this new triumph in medical chemistry, they may find that they can enjoy the often comforting benefits of true mineral bathing in the snug convenience of their own homes.

To share my good fortune, I sent a package of BATHERAPY to a friend. He wrote me:

"Now, when my aches get unbearable, I simply get in my tub and let a BATHERAPY bath soak them away! It's like taking a Mineral Bath at one of those European Spas you read about — but I bet even they can't match the blessed relief my own tub now gives me."

Available to Hospitals and the Public

As this is being written, BATHERAPY is be-

ing made available to hospitals everywhere — and to the public through this announcement. Already thousands are enjoying its benefits. Yet BATHERAPY does not help everyone. Unfortunately, there are some people who are constitutionally unable to respond even to Nature's own Mineral Baths. If you, however, are among the millions who suffer from minor aches and pains — or from the tensions and fatigues of modern living — ask your doctor about BATHERAPY. If he thinks it might help you, by all means try it. The chances are you'll find its soothing, cushioning, pain-soothing action will give you surprising relief from minor discomforts and a feeling of well-being that may last for quite a little time.

Nothing Else Like It!

Even if you are fortunately free of any bodily discomforts, you'll find a bath with BATHERAPY is a delightful and rewarding experience... A wonderful sensation of physical freedom envelopes you. Tensions unwind. Nerves are soothed. And you relax so blissfully, you sleep as though you hadn't a care in the world...

It is called BATHERAPY," he told me. "You simply add a handful or two of green crystals to a tub of moderately hot water, then let yourself soak in it for about 20 minutes. Mind you, this won't cure aches or pains — but it may give you welcome temporary relief from pain."

Hart said that even before the growing controversy over the ABM system started there were 45 senators in opposition to the idea.

I was one of the many who tried it. For months I had been annoyed by nagging muscular aches and a twinge pain in my elbow. Even though skeptical, I was eager to test this doctor's new formula. I would have tried anything that offered any hope at all of easing my discomfort.

Hart said that even before the growing controversy over the ABM system started there were 45 senators in opposition to the idea.

I was one of the many who tried it. For months I had been annoyed by nagging muscular aches and a twinge pain in my elbow. Even though skeptical, I was eager to test this doctor's new formula. I would have tried anything that offered any hope at all of easing my discomfort.

"It is called BATHERAPY," he told me. "You simply add a handful or two of green crystals to a tub of moderately hot water, then let yourself soak in it for about 20 minutes. Mind you, this won't cure aches or pains — but it may give you welcome temporary relief from pain."
